TITLE 26—INTERNAL REVENUE CHAPTER I—BUREAU OF INTERNAL REVENUE

[T. D. 5012]

SUBCHAPTER C—MISCELLANEOUS EXCISE TAXES

PART 184—PRODUCTION OF BRANDY Amending Regulations 5

Section 213 of the Act of June 25, 1940 (Public—No. 656—76th Congress), is as follows:

(a) Section 2800 of the Internal Revenue Code is amended by inserting at the end thereof the following new subsections:

"(g) *Defense tax for five years.* In lieu of the rates of tax specified in such of the sections of this title as are set forth in the following table, the rates applicable with respect to the period after June 30, 1940, and before July 1, 1945, shall be the rates set forth under the heading 'Defense-Tax Rate':

|------------------------------|---|-------------|-----------------------------|
| 2800 (a) (1) 2800 (a) (1) | Distilled spirits generally... Brandy..... | \$2.25 2 | \$3 2.75 |

Pursuant to the foregoing provision of law, sections 2802 (a), 2812, 3037, 3176, and 3254 (g) of the Internal Revenue Code, and sections 3 and 6 of the Federal Alcohol Administration Act, as amended (27 U.S.C. Sup., 203, 206), § 184.80 of Regulations 5¹ is hereby revoked, and the title of Article X and §§ 184.58, 184.121 (a), (b), 184.142, 184.148, 184.149, 184.150, 184.246, 184.255, 184.256, 184.296, 184.310, and 184.412 of the said regulations are hereby amended to read as follows:

Article X—Federal Alcohol Administration Act Permit

§ 184.58 *Permit required.* Under the Federal Alcohol Administration Act and the regulations issued pursuant thereto

(27 CFR, Part 1), any person, except an agency of a State or political subdivision thereof, or any officer or employee of any such agency, intending to engage in the business of producing brandy, is required to procure a permit therefor. (Sec. 3, 49 Stat. 978; 27 U.S.C. Sup., 203)

§ 184.121 *Change in individual, firm, or corporate name.* Where there is a change in the individual, firm, or corporate name of the distiller, he must comply with the following requirements:

(a) *Amended permit.* Procure from the district supervisor under the Federal Alcohol Administration Act an amended basic permit authorizing operation of the distillery under the new name.

(b) *Amended notice, Form 27½.* Submit to the district supervisor an amended notice on Form 27½, in triplicate, covering the new name, which notice must be approved before operations may be commenced under the new name.

§ 184.142 *Examination of other qualifying documents.* Upon receipt of notice, plat, plans, bond, and other documents required by these regulations of persons intending to qualify as fruit distillers, the district supervisor will examine the same to determine whether they have been properly executed, and whether they reflect compliance with the requirements of the law and regulations. Where any required document has not been filed, or where errors or discrepancies are found in those filed, or where the documents filed do not reflect compliance with these regulations, action thereon will be held in abeyance until the omission, or error, or discrepancy has been rectified, and there has been full compliance with all requirements. (Sec. 3176, I.R.C.)

§ 184.148 *Approval of qualifying documents.* If the district supervisor finds, upon examination of the inspection report, that the person seeking to qualify as a fruit distiller has complied in all respects with the requirements of law and these regulations, and the distiller's bond (Form 30½) may properly be approved under § 184.147, and if the applicant is entitled to a permit, he will note his recommendation for approval on all copies of the bond and notice, and his approval on all copies of the plat and plans, and will forward all copies of the bond and notice and the original copy of the plat, plans, and other qualifying documents, together with a copy of all inspection reports, to the Commissioner for final action. The issuance of a permit should be withheld pending approval by the Commissioner of the notice, bond, and other qualifying documents required under the internal revenue laws. (Sec. 3176, I.R.C.)

§ 184.149 *Disapproval of qualifying documents.* If the district supervisor

finds that the applicant has not complied in all respects with the requirements of the law and regulations, or that the situation of the distillery is such as would enable the distiller to defraud the United States, or if the bond should be disapproved under § 184.147, he will note his recommendation for disapproval on the bond, and will forward to the Commissioner for final action such copies of the qualifying documents as are required to be so forwarded by the preceding section in the case of recommendation for approval, together with a copy of all inspection reports. Where a bond is recommended for disapproval, the district supervisor will furnish the Commissioner with a full statement of the reasons therefor. If the applicant is not entitled to a permit, the district supervisor will, upon disapproval of the application therefor, return all copies of the qualifying documents to the applicant without action thereon or reference to the Commissioner. (Sec. 3176, I.R.C.)

§ 184.150 *Disposition of qualifying documents.* Where the distiller's bond (Form 30½), notice (Form 27½), and special application (Form 1613), if any, are approved by the Commissioner, the district supervisor will, upon receipt of approved copies of such documents from the Commissioner, as provided in Article XVIII, forward one copy of the bond, special application, if any, notice, plat, plans, and other qualifying documents to the distiller and will retain one copy of such qualifying documents for the file of such distiller. The extra copy of the special application (Form 1613), if any, received from the Commissioner will be placed by the district supervisor in the file of the rectifier. If the bond and special application, if any, are disapproved, the district supervisor will, upon receipt from the Commissioner of the disapproved copies of such documents and other qualifying documents submitted therewith, return all copies of the qualifying documents to the proprietor, with advice as to the reasons for disapproval. (Sec. 3176, I.R.C.)

§ 184.246 *Rate of tax.* The law imposes a tax on distilled spirits produced in or imported into the United States at the rate of \$3 on each proof gallon or wine gallon when below proof and a proportionate tax at a like rate on all fractional parts of such proof or wine gallon, to be paid when withdrawn from bond, except brandy distilled at less than 190 degrees proof, on which the tax is imposed at the rate of \$2.75 on each proof gallon or wine gallon when below proof and a proportionate tax at a like rate on all fractional parts of such proof or wine gallon. Spirits distilled from fruit at a proof of 190 degrees or over (spirits—fruit) are subject to the tax at

¹ 5 F.R. 886.

the higher rate. (Sec. 3176, I.R.C., sec. 2800 (a), I.R.C., as amended)

§ 184.255 *Unfinished spirits.* The distiller may take samples of brandy or fruit spirits in the course of distillation for laboratory analysis. Each sample may not exceed one-half pint, unless it is shown that such is an insufficient quantity for the purpose for which the sample is desired, and the Commissioner authorizes the taking of a larger sample, not to exceed one pint. The total number of samples must be restricted to the minimum necessary to accomplish the purpose of the laboratory analysis. (Sec. 3176, I.R.C., sec. 3037, I.R.C.)

§ 184.256 *Finished spirits.* The distiller may take from the receiving tanks of the distillery samples of brandy or fruit spirits for laboratory analysis. Such samples may not exceed one pint for each distillation of each kind of brandy or fruit spirits produced daily, unless it is shown that such is an insufficient quantity for the purpose for which the sample is desired, and the Commissioner authorizes the taking of a larger sample, not to exceed one quart. (Sec. 3176, I.R.C., sec. 3037, I.R.C.)

§ 184.296 *Issuance of tax-paid stamps.* The collector will issue the tax-paid stamps. Each tax-paid stamp shall bear the signature of the collector, who shall write or stamp thereon the date of payment of the tax, by whom paid, the number of gallons and tenths of gallons of proof spirits, and the serial number of the cask. Facsimile signatures of collectors may be affixed by the use of hand stamps to the tax-paid stamps, care being taken to use only such ink as will neither fade nor blur. The collector will enter the serial numbers of the stamps in the appropriate spaces on all copies of Forms 179 and 1520, sign the certificate of tax-payment on each copy of Form 179, retain one copy each of Form 179 and Form 1520, and return the remaining three copies of Form 179 and two copies of Form 1520 to the distiller with the stamps. (Sec. 3176, I.R.C., sec. 2802 (a), I.R.C.)

§ 184.310 *Mixing of different spirits prohibited.* Brandy or fruit spirits produced by two or more distillers shall not be mingled in a storage tank; nor shall brandy or fruit spirits produced from one kind of fruit or berry be so mingled with brandy or fruit spirits produced from another kind of fruit or berry; nor shall brandy and fruit spirits distilled from the same kind of fruit or berry, or brandies which differ in kind according to the standards of identity established under the Federal Alcohol Administration Act, be mingled in a storage tank; nor shall brandy or fruit spirits distilled from the same kind of fruit or berry during different distilling seasons, or brandy distilled

at proofs differing more than 10 degrees, be so mingled. Sec. 3176, I.R.C., sec. 3254 (g), I.R.C.)

§ 184.412 *Bulk containers.* Under the regulations issued pursuant to the Federal Alcohol Administration Act (27 CFR, Part 3), fruit distillers may sell or dispose of brandy in bulk, that is, containers having a capacity in excess of 1 wine gallon, (1) to other distillers and proprietors of internal revenue bonded warehouses, industrial alcohol plants and industrial alcohol bonded warehouses, including those operating tax-paid bottling houses; (2) to proprietors of class 8 customs bonded warehouses; (3) to rectifiers; (4) to winemakers (brandy or alcohol) for fortification of wine; (5) to any agency of the United States or of any State or political subdivision thereof; (6) for export; (7) on warehouse receipts, conforming to the regulations issued under the Federal Alcohol Administration Act, for distilled spirits in internal revenue bonded warehouses; and (8) for industrial use, as follows: For experimental purposes, and in the manufacture (a) of medicinal, pharmaceutical, and antiseptic products, including prescriptions compounded by retail druggists; (b) of toilet products; (c) of flavoring extracts, sirups, or food products; or (d) of scientific, chemical, mechanical, or industrial products; provided such products are unfit for beverage use. Fruit distillers may not, under the regulations issued pursuant to the Federal Alcohol Administration Act (27 CFR, Part 3), sell or dispose of brandy (not including spirits—fruit) in bulk for industrial use unless such brandy is shipped or delivered directly to the industrial user thereof. TITLE 29—LABOR

CHAPTER V—WAGE AND HOUR DIVISION

PART 522—REGULATIONS APPLICABLE TO THE EMPLOYMENT OF LEARNERS

The following Regulations—Part 522, §§ 522.060 to 522.071, Regulations Applicable to the Employment of Learners, are hereby issued. These regulations repeal and supersede all regulations previously issued applicable to the employment of learners in the Knitted Wear Industry, and shall become effective upon my signing the original and upon the publication thereof in the FEDERAL REGISTER, and shall continue in force and effect until hereafter modified.

Signed at Washington, D. C., this 5th day of October 1940.

PHILIP B. FLEMING,
Administrator.

§ 522.060 *Issue of special learner certificates in the knitted wear industry.* Special certificates authorizing the employment at subminimum rates of learners in the Knitted Wear Industry engaged in the occupations of machine knitter, machine stitcher, presser, wind-er, dyeing machine operator, brush machine operator, or dryer operator shall be issued upon the terms and con-

ditions set forth below to any plant making application therefor on forms provided by the Wage and Hour Division.

§ 522.061 *Number and proportion of learners for labor turnover.* Learners employed under the certificate for labor turnover shall not exceed at any one time five percent of the total number of productive factory workers employed in the plant, (not including office and sales personnel) provided however that if the total factory employment is less than 100, the employment of as many as five learners may be authorized in any certificate.

§ 522.062 *Learner occupations.* Learners may be employed only in the occupations of machine knitter, machine stitcher, presser, winder, dyeing machine operator, brush machine operator, and dryer operator, except that in exceptional cases the employment of learners at a subminimum wage may be authorized in other occupations upon a showing by any individual employer making application for a special certificate that a denial would result in a curtailment of opportunities for employment.

§ 522.063 *Length of learning period.* No worker shall be employed as a learner under the certificate after 480 hours' experience in the occupation of machine knitter, or 320 hours in the occupations of machine stitcher or presser, or 240 hours in the occupations of winder, dyeing machine operator, brush machine operator, or dryer operator.

§ 522.064 *Learner wage rate.* Learners employed under the certificate shall be paid not less than 25 cents per hour. Where experienced operatives are paid piece work rates, learners shall be paid the same piece work rate, and shall receive piece rate earnings if in excess of the subminimum rate.

§ 522.065 *Investigation of labor conditions.* Certificates for labor turnover shall authorize the employment of learners at subminimum rates only when experienced workers are not available in the area from which the employer customarily draws his supply of labor. Investigations of local labor market conditions when necessary shall be made with the cooperation of the Public Employment offices, employers' associations, trade unions, and by field investigations of the Wage and Hour Division. Where the information furnished with requests for renewal of turnover certificates, or where investigations made by the Division indicate that learners have been employed in such a manner as to create unfair competitive labor cost advantages for the applicant, or to depress working standards established for experienced workers for work of a like or comparable character in the industry, no certificate shall be issued.

No. 198—2

§ 522.066 *New plants, expanding plants, and government contract production.* Special certificates authorizing the employment of learners upon the same terms and conditions in the same occupations may be issued for a number in excess of the five percent allowed for labor turnover as provided above for "new plants" and "expanding plants." A "new plant" is one which is newly established and being operated for the first time, or which has not been operated more than eight months, and in which a substantial number of workers must be trained for operations on products of the plant. "Plant expansion" means expansion by the installation of additional mechanical equipment or other production facilities.

Special certificates may also be issued authorizing the employment of learners on the same terms and conditions in the same occupations to plants operating on Government contract production required by the National Defense Program, to the extent of expanding production needs, which shall be stated in the application.

Such special certificates shall not be issued when it appears that experienced workers are available to the employer within the area from which he customarily draws his supply of labor, or that the issue of a special certificate will create unfair competitive labor cost advantages, or will impair or depress working standards established for experienced workers for work of a like or comparable character in the industry.

§ 522.067 *Revocation of special learner certificates.* (a) Any special certificate may be canceled if it is found that it is not necessary to prevent a curtailment of opportunities for employment, provided, however, that when experienced workers become available after a certificate has been issued, the certificate may be canceled in so far as future employment is concerned, or may be allowed to continue in effect, upon condition that the employer does not hire additional learners under it until experienced workers are not again available. In the absence of fraud or misrepresentation learners already hired under a special certificate may be retained under the terms of the certificate if the learning period extends beyond the date on which the certificate has been canceled.

(b) Any special certificate shall be canceled as of the date of issue if it is found that the certificate has been obtained by fraud or misrepresentation, or that learners have been employed thereunder in violation of the terms of the certificate. When a certificate has been obtained by fraud or misrepresentation the employer shall be liable to the employee for wages established by the Act as if no certificate had issued.

(c) Any special certificate shall be canceled as of the first date of violation if it is found that any of its terms have been violated, and the employer shall be liable to those employed under such certificate, from the date of the violation, for wages established by the Act, as if no certificate had issued.

§ 522.068 *Definitions of learner.* Only learners may be employed at a subminimum wage under certificates issued. In these regulations the term learner means a person who has not been employed within the previous two years in the Knitted Wear Industry for more than 480 hours in the occupation of machine knitter, or 320 hours in the occupations of machine stitcher or presser, or 240 hours in the occupations of winder, dyeing machine operator, brush machine operator, or dryer operator.

§ 522.069 *Definition of experienced worker.* An experienced worker for the purpose of these regulations hereby defined is any person who has been employed within the previous two years in the Knitted Wear Industry for more than 480 hours in the occupation of machine knitter, or 320 hours in the occupations of machine stitcher or presser, or 240 hours in the occupations of winder, dyeing machine operator, brush machine operator, or dryer operator.

§ 522.070 *When experienced workers are available.* The terms "available" and "experienced" as used in these regulations shall be construed in the following manner; that experienced workers should be available within the area from which the employer customarily draws his labor supply, or that such workers have in fact made themselves available to the employer at the plant or place of employment, and have signified their readiness to accept and to continue in employment. Such workers should also possess the requisite experience obtained within the preceding two years and also be capable of equaling the performance of a worker of ordinary skill and experience. The merits of particular cases involving availability and the definition of an experienced worker, which present singular or unusual facts and circumstances, will be given due consideration.

§ 522.071 *Definition of knitted wear industry.* The term "Knitted Wear Industry" includes the commercial knitting of fabrics and men's, women's, infants' and children's knitted apparel and accessories except gloves and hosiery as defined by the wage orders for the Knitted Outerwear Industry and the Knitted Underwear and Commercial Knitting Industry (Title 29, Chapter V, §§ 584.4¹ and 555.4,² respectively, Code of Federal Regulations).
